### FUND OBJECTIVE

The Global Fixed Interest Fund's objective is to deliver a total return through a combination of capital growth and income over the long term (5 years +). It aims to do this by investing in a diversified portfolio of fixed interest funds that have exposure mainly to investment grade and sub-investment grade bonds, via active, factor and passive strategies.

### FURTHER INFORMATION

- The Global Fixed Interest Fund will primarily invest in underlying funds but will also have the ability to invest in direct securities if appropriate. These direct investments, for example UK gilts, could be utilised where the investment team believe such direct investments will be more efficient.
